Cookies Policy

In compliance with Law 34/2002, dated 11 July, on information society services and electronic commerce , DAEDO, SL, informs its users of the use of cookies to improve the service provided.

What are cookies?

A cookie is a file that is downloaded to your computer when you access certain websites. Cookies allow a website, among other things, to store and retrieve information about the browsing habits of a user or their computer so that, depending on the type of browsing, they can offer a better service through the website.

What type of cookies does this website use and what are their purposes?

- Technical cookies: These are those that allow the user to browse through a website, platform or application and use the different options or services that exist on it such as, for example, controlling traffic and data communication, identifying the session, accessing restricted access parts, remembering the elements that make up an order, carrying out the purchase process of an order, making the application for registration or participation in an event, using security elements during browsing, storing content for the broadcasting of videos or sound or sharing content through social networks.
- Analysis cookies: These cookies allow the party responsible for them to monitor and analyse the behaviour of the users of the websites to which they are linked. The information collected through this type of cookies is used to measure the activity of the websites, application or platform and for the elaboration of browsing profiles of the users of these sites, applications and platforms, in order to introduce improvements based on the analysis of the usage data of the users of the service.
